

Patchway Community School

Expectations for Users of the sports centre during Covid19

In order for us to protect our staff and those using our facilities, we have put in place the following rules and procedures during the Covid19 epidemic; these may change and be updated in accordance with government guidance:

- Only two disabled toilets will be open at any one time - The main toilets will be locked to avoid unnecessary contact with others.
- Changing rooms will not be made available - You should arrive at the sports centre in sports kits and travel home to change/shower
- You should avoid unduly raising your voice. This is because of the potential for increased risk of transmission - No music is to be played so that voice levels are kept lower
- No-one is allowed in the building unless they are participating in an activity – parents must drop their child at the entrance to the sports centre and collect from the main hall fire exit
- All clubs must ensure their members maintain social distancing at all times, especially at dropping off / picking up times

To help keep you safe in our facilities:

- Additional cleaning will be carried out every hour of the toilet facilities
- Door handles will be cleaned every hour and after every letting
- Bins will be emptied regularly
- Any equipment owned by the sports centre will be cleaned after each letting
